

ABOUT REBEKAH CARROLL

Rebekah E.B. Carroll, joined the Chamber team in February of 2008. Unbeknownst to her, during those first cold, snowy Upstate New York days she fell in love with Chamber work and found herself whole-heartedly supporting the mission of the Watkins Glen Area Chamber of Commerce. As she moved from Contract Bookkeeper to Director of Operations & Finance to Chief Financial Officer/Chief Operating Officer, she continued to learn the intricacies of Chamber programs, events, and activities. Rebekah is committed to supporting the Chamber members, constituents, partners, and team. In May of 2010, by unanimous vote of the Board of Directors, she was named President/CEO of the Chamber and is ready to lead this Chamber forward!

Rebekah's professional career began at Schuyler Hospital (a rural, big-hearted hospital located in Montour Falls, NY) in the accounting office, where she worked for seven years. In 2005, when Rebekah resigned from the hospital to stay at home with her young children, she was functioning in the capacity of Assistant Director of Human Resources and Junior Accountant. For the next three years, Rebekah was the sole-proprietor of two different businesses – a registered group daycare (REBEKAH'S PLACE DAYCARE) and a consulting business. While wearing her "consultant" hat, she contracted with Corning's Gaffer District (Corning, NY) as its Interim Director of Operations, performed all billing services for two small medical offices, performed Sales Tax Recovery Projects for local non-for-profit organizations, and prepared small business and personal income tax returns.

Rebekah is proud to say that she has lived in the area since she was eleven. She currently lives with her new husband and their four children. Rebekah is actively involved in the community and serves on Schuyler County Partnership for Economic Development (SCOPED) and Finger Lakes Wine Country's boards of directors. Rebekah is a member of the Watkins-Montour Rotary Club. She graduated from Chamber Institute in 2015 receiving her degree in Organizational Management, from Leadership Schuyler in 2010 and from Corning Community College in 2009 where she earned her Business Administration (A.A.S.) degree.
