Watkins Glen Area Chamber of Commerce Introduces Chamber Ambassador

Watkins Glen, NY – The Watkins Glen Area Chamber of Commerce is excited to introduce Chamber Ambassador Eldon Cummings. Eldon is the Senior Control Systems Integrator for Cybertech Automation.

Eldon is a lifelong resident of the Corning area and is proud to call the Finger Lakes home. He has spent over 18 years in the engineering and IT fields, with a recent addition of instrumentation, electrical, and control system design. As the Senior Control Systems Integrator for Cybertech Automation, he focuses on large-scale networking deployments, SCADA, and automation for manufacturers and process control industries. Along with the design and deployment of these systems, Eldon is also tasked with expanding the U.S. market for Cybertech Automation.

Of joining the Ambassador Program, Eldon shares, "I became an Ambassador because I understand that having a little support can make a difference for a business or an individual. I enjoy being able to help in whatever capacity I'm needed. The Ambassador Program allows me to work closely with local businesses to help provide access to the many tools that chamber membership offers."

The Ambassador Program was introduced in January 2014. Ambassadors connect with different members to serve as an avenue of communication and information between the Chamber and its members, and vice versa. Among other things, the Ambassador Program ensures that the Chamber reaches out and touches each and every member in a calendar year, and it is integral in the continued growth of our membership and community.
