**WATKINS GLEN AREA CHAMBER OF COMMERCE ANNOUNCES
PARTNERSHIP WITH THE BETTER BUSINESS BUREAU**

Watkins Glen, NY – The Watkins Glen Area Chamber of Commerce is now an official Community Partner of the Better Business Bureau of Upstate New York (BBB). The organizations entered into this partnership to create better growth opportunities for the businesses in each organization by providing community events, presentations, and other types of resources.

The Chamber and BBB will work together for businesses, which are the economic drivers of local communities and active supporters of nonprofit and charitable organizations near and far. Chamber President and CEO Rebekah Carroll shares, "As a growing Chamber of nearly 500 members, the time is right for us to partner with the Better Business Bureau. Their reputation as a leader in business complements the vision of our organization. We strive to be innovative, member-focused, committed to growth, and dedicated to excellence. We look forward to working with the BBB to continue to improve the business climate in Schuyler County – and beyond!"

For more than 100 years, Better Business Bureau has helped people find businesses and charities they can trust. BBB has profiles on more than 5.3 million businesses and 11,000 charities, available at bbb.org. There are local, independent BBBs across the United States, Canada and Mexico, including BBB of Upstate New York, founded in 1923 and serving the 48 counties of Upstate New York.
